SNG and Live Positions

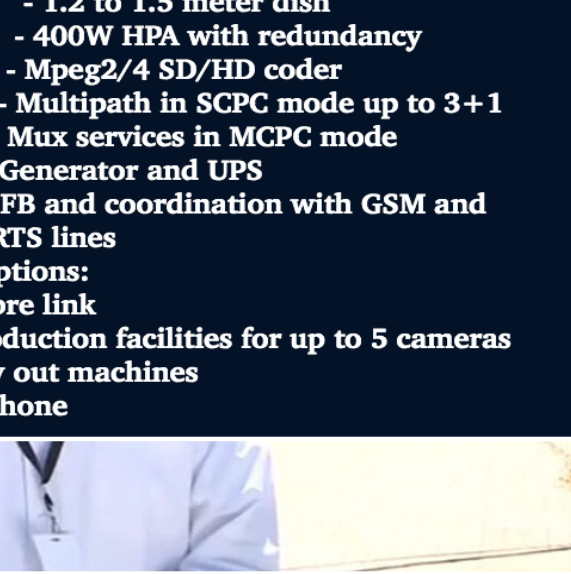

Through our stable SNG System we can provide 24 hour ready uplink service.

All our SNG includes

- 1.2 to 1.5 meter dish
- 400W HPA with redundancy
- Mpeg2/4 SD/HD coder
- Multipath in SCPC mode up to 3+1
- Mux services in MCPC mode
- Generator and UPS
- IFB and coordination with GSM and RTS lines

Options:

- Fibre link
- Production facilities for up to 5 cameras
- Play out machines
- Satphone

Our technicians have developed their own SNG vehicles. They are so familiar with all the cables and equipment, that they can guarantee the best operational efficiency. Whether for single or multi-path transmission or for up to 5 camera production units, our SNG can be equipped accordingly.

Production Studios

Flexible space, Great usability, Quality kit

- Tech support
- Green room
- Dressing rooms
- Production office
- Double cyclorama rails
- Full pantograph and trolley lighting system
- Full-spec high-definition broadcast TV studios
